

SERIES 2067 – REFRIGERATOR LIGHTING SYSTEM WITH LED

ADVANTAGE

Uniform attractive lighting

Specially developed design for high optical requirements

Very flat design

Design for optimum and assembly process

Fast lamp replacement

Comfortable to clean

PRODUCT FEATURES

- 2 power LEDs in each light element
- 2-part cover with white frame and transparent window
- Flat assembly in side wall of appliances
- Assemblies with 2, 3, or 4 light elements including wire harness as well as standard Rast 2.5 connector
- Up to eight replaceable LEDs
- Plain surface

EXAMPLES OF APPLICATION

- Large household appliances
- Furniture

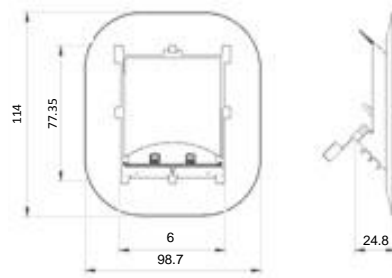

Color temperature	5,600 – 6,000 K
Luminous flux of LEDs	25 lm
Power supply	90 mA (13.8 V, 20.7 V or 27.6 V) DC
Mounting position	Inside walls or ceiling
Storage (less than 6 months)	-40 °C ... +85 °C
Ambient temperature	-40 °C ... +45 °C
RoHS / REACH	In accordance with guidelines
