

## ADVANTAGE

High level of flexibility
High level of tolerance in use
Suitable for acoustically sensitive areas

High level of safety and reliability

## Suitable for harsh environment

## Numerous versions

## EXAMPLES OF APPLICATION

$\rightarrow$ Automotive applications
$\rightarrow$ Locking systems (rotary latches, pawls, cinching, key cylinder controls etc.)
$\rightarrow$ Seat applications
$\rightarrow$ Convertible top applications
$\rightarrow$ Cockpits
$\rightarrow$ Off-road vehicles
$\rightarrow$ Heating- and climatic controls
$\rightarrow$ Lawn and garden appliances
$\rightarrow$ Security technology
$\rightarrow$ Industrial applications

## PRODUCT FEATURES

$\rightarrow$ Change-over, diagnostics capability, center-off-version
$\rightarrow$ Large overtravel to adapt mechanical tolerances of periphery
$\rightarrow$ Noiseless switching system
$\rightarrow$ Redundant contact system for high switching reliability by double contacting, self-cleaning contact system due to wiping contacting
$\rightarrow$ Dust and water protection up to IP 67
$\rightarrow$ Different versions available regarding fastening pins, lever forms, customized cable assembly

| Mechanical life endurance | 200E3 |
| :---: | :---: |
| Electrical life endurance | 14 V DC $10 \mathrm{~mA} \geq 200 \mathrm{E} 3$ <br> 30 V DC $100 \mathrm{~mA} \geq 40 \mathrm{E} 3$ |
| Contact resistance (new condition) | 500 mOhm |
| Contact resistance (after lifetime) | 1 Ohm |
| Insulation resistance (new condition) | > $100 \mathrm{mOhm}(500 \mathrm{~V}$ DC) |
| Switching voltage | $5-30 \vee D C$ |
| Switching current | $1-100 \mathrm{~mA}$ |
| Actuating angle (see specification) | $\leq 40^{\circ}$ |
| Protection type <br> $\rightarrow$ Actuator and switch system of all basic types <br> $\rightarrow$ Terminal basic type 1065 (or 1060, 1070 and 1075) <br> $\rightarrow$ Terminal basic type 1068 (or 1062,1072 and 1078) | $\begin{aligned} & \text { IP } 67 \\ & \text { IP } 00 \\ & \text { IP } 67 \end{aligned}$ |
| Ambient temperature | $-40^{\circ} \mathrm{C} \ldots+85^{\circ} \mathrm{C}$ |

## VARIANTS

| Basic type 1065 | Center-Off-Switch 1075 | Diagnostics capable switch 1060/1070 |
| :---: | :---: | :---: |
| $\rightarrow$ Normally closed / open or changeover version | $\rightarrow$ Two normally open functions from center position <br> $\rightarrow$ Three switching positions | $\rightarrow$ Micro-signal switch with circuit monitoring (e. g. short circuit or cable break) <br> $\rightarrow$ Three switching positons |
| $\rightarrow$ Flexible adaption: long overtravel > 1,8 mm to adapt mechanical tolerances of periphery | $\rightarrow$ Cost reduction $>50 \%$ <br> $\rightarrow$ Save space due to omission of one switch <br> $\rightarrow$ Optional with diagnostics capability | $\rightarrow$ Cost and space reduced due to integrated resistors <br> $\rightarrow$ Increased safety due to diagnostics capability <br> $\rightarrow$ Wire harness cost saving due to saving one cable by change-over |
